PRICE FIVE CENTS

OPPOSITION TO TARIFF USELESS

EFFORTS TO DISTURB MARKET BASKET REDUCED TIONS FAIL

BREAK IN DEMOCRAT RANKS

SUGAR INTERESTS FIGHT FOR PROTECTION, OTHERS VAINLY TRY TO PLACE LIVE STOCK ON FREE LIST

WASHINGTON, D. C., May 1.—All efforts of the opposition to disturb the "Market Basket" reductions in the Democratic tariff bill, failed in the house today, despite the warning of ruined industries, enforced idleness and empty cupboards to follow the enactment of the Underwood bill.

Still championing the bill as the greatest that has ever been written for the benefit of the people of the country, the Democrats turned a deaf ear to the pleas of representatives of the beet and cane sugar districts against a three year duty, and then free sugar, unmoved by the charge that they legislated into the hands of the best trust by placing duties on live stock while free letting their products; and are determined to rush the passage of the bill at the earliest moment.

The first break from the solid front of the majority came when Louisiana Democrats, led by representative Broussard, appealed to Republican leader Mann for a share of his time in which to speak against sugar schedule, and when Kinkaid of New Jersey, uttered the prediction that the Senate would strike out the Ways and Means Committee on per cent rates on live stock and when Sloan of Nebraska introduced amendment by Forney of Michigan which had been rejected, Kinkaid declared he believed the Ways and Means Committee had kept the platform pierce to the people when they reduced live stock rates to 10 per cent, but he felt that the committee should have placed live stock in the free list with meats. This aroused applause from the Republicans who earlier cheered when Broussard declared the sugar rates proposed by the party would rebound only to the benefit of the sugar trust.

A lost vote on sugar came on the amendment offered by Mann to strike out the three year provision which was lost by a vote of 88 to 186.

The agricultural schedule precipitated prolonged discussion, through Underwood held it down with frequent motions to cut off debate on successive paragraphs.

The sessions lasted far into the night. Chief Justice of the U. S. Court of Claims.

Edward C. Campbell, a lawyer of Birmingham, Alabama, was nominated today by Wilson to be Chief Justice of the United States Court of Claims, to succeed the late Justice Stanton Poole.

It has been persistently reported from Europe that ex-King Manuel of Portugal, whose escapades with Gaby Deslys made her known throughout Europe and America, is about to wed a distant relative of Kaiser Wilhelm—the daughter of Prince William Hohenzollern, head of the non-reigning Catholic branch of the Hohenzollern family. ROCKY MOUNTAIN TRIP FEATURES

DENVER BEAUTIFUL CITY NEAR SNOW CAPPED MOUNTAINS

Denver will be the headquarters of this trip and naturally you will want some information on just what will be seen while there. Most people who have never been in Denver have formed the idea that the city of Denver is located in the mountains. This is not true, for it is located about 12 miles east from the foothills of the Rocky Mountains, at the junction of the Platte River and Cherry Creek, in a setting of natural beauty one mile above the sea level that has made it the world-famous city that it is, and the panoramic views which can be had from any elevation in the city impress one that never before did they realize what a small item they were in the general make up of the universe.

A view can be had of the purple foothills and snow-capped peaks for a distance of 200 miles north and south. To the east, the vision reaches to the horizon, the vast, vast expanse of the American plains. To the west the sight of the foothills and the Rocky Mountains range is inescapable.

You will take an automobile trip through Denver that will leave an impression on your mind never to be forgotten, for the sights to be seen are in keeping with the national reputation of the city. You will see more than can be explained in this limited space. The following are the most interesting places in Denver and which will appeal to you most forcibly. Pioneer monument, state capital, site of the new civic center, the civic center, is an approach to the state capital that is an exclusive Denver idea, a public library building, Electric building, Auditorium, Daniels and Fisher Tower (the third tallest in the world), the new marble postoffice, all of the hotels, financial and shopping districts, miles of Denver's most beautiful residence districts, the city park with its world famous zoo, the most picturesque mountain and valley scenes in the world.

This trip can not be excelled from point of service and equipment. It is genteel, wholly lacking in coarseness and ill-timed jokes. It is not conspicuous, but will appeal to the most intelligent and refined.

The balance of the trip will take you to many of the most thrilling and interesting scenes of this section of the world's most famous spot for natural beauty. Most prominently included in it will be the following: The Pike Peak region that you have all heard so much about and that leaves an attempt at description blundering for words.

WEBB ANTI-ALIEN BILL OFFENSIVE

MORE OBNOXIOUS THAN ANY PREVIOUS LEGISLATION PROPOSED

WILSON WIRED JOHNSON

PRESIDENT SUGGESTED THAT THE PENDING MEASURE MIGHT INVOLVE NATION IN LITIGATION

WASHINGTON, D. C., May 1.—Just before leaving for a two days' trip to New Jersey, President Wilson sent a message to Governor Johnson which suggested that the Webb Anti-Alien Bill would involve an appeal to the courts on the question of treaty rights and would bring on what might be a long and continued litigation.

The governor replied immediately that he would be grateful for any suggestions that would avoid the objection mentioned. This reply came after the President had left.

At the department, absolute silence is maintained and it was made plain that there would be no more announcements before Secretary Bryan's return.

The Japanese embassy is equally reticent, although it is understood that the Webb bill is regarded as even more offensive than any previous drafts of proposed legislation.

DEMOCRATS WILL OPPOSE WEBB BILL

OPPOSITION TO ANTI-ALIEN BILL FINALLY TAKES FORM

WILL SUPPORT PRESIDENT

DEMOCRATS HAD EXPECTED TO VOTE FOR WEBB BILL BUT ARE INFLUENCED BY BRYAN TO OPPOSE

By Associated Press.
SACRAMENTO, Cal., May 1.—Indication of the formal Democratic opposition will take the passage of the Webb bill resting on alien land holding, were given the Senate today when the measure was up for final action. It was the original plan of Progressive Republicans to force the bill to a vote at once, but at the request of Democrats for postponement, one day was granted at the last minute.

The matter was as the special order for 11 o'clock tomorrow morning, and in return for delay the administration received a pledge from the minority that it would abide by the results as shown in the final roll call and not demand a reconsideration. Thus the Progressives feel that several days have been gained by checking efforts to impede their plans. A brief debate today disclosed the fact that the Democrats have listened to the advice from Bryan and will make formal stand in support of the National administration.

Democrats will introduce a resolution calling upon the Senate not to pass the bill this session in deference to President Wilson. Beyond that, it is believed, Democrats will not go as the party platform calls upon them to stand in passing the anti-alien bill and most of them expected to cast their votes for the Webb bill in its present form. There is much interest in the future movement of Bryan, who expects to remain for several days.

Price of 1000 bushels.
NEW YORK, May 1.—The price schedule by which the price of natural gas and petroleum is set to consumers in Greater New York was raised from \$3.50 per bushel a month ago, to \$4 a ton, sent into effect today to the dismay of large and small consumers alike. So far no natural gas is concerned the advance in price is explained by the increased scarcity of the supply due to the unusually mild winter, but no explanation has been given to account for the advance in the price of artificial gas the manufacture of which is in no way influenced by meteorological and climate conditions.

It was at the beginning of the conflict between Spain and the United States, following the destruction of the battleship Maine in the harbor of Havana. When war was declared the American fleet under Commodore Dewey, which had been ordered away from Hong Kong by the British authorities, made a quick dash across the South China sea and landed straight for Manila Bay, the most important port of the Philippine Islands. On the morning of May 1, 1898, just before dawn, the American fleet, under cover of the darkness and confusion of the night, in the channel, steamed into the harbor and an intense Spanish fleet, completely destroyed every ship of the Spanish fleet without the loss of a single man on the American side.
